SKILLS

Languages:	Java, C++, Python, C, JavaScript
Frameworks:	HTML and CSS, NodeJS, React
Tools/Platforms:	Azure, AWS, Linux, Docker, Kubernetes, Git, GitHub, CI/CD
Soft Skills:	Problem-Solving, Project Management, Adaptability, Leadership

PROJECTS

Virtual Zoo Website React, Node.js, MongoDB, HTML/CSS GitHub	May' 25
- Created an interactive virtual zoo platform where users can explore animals, view details, images, habitats, and categories through a dynamic React-based interface linked to a Node.js/Express backend and MongoDB database. - Developed frontend pages, connected APIs, managed animal data, added search and navigation features, optimized UI responsiveness, and implemented clean layouts and smooth user interactions. - Delivered a fully functional, user-friendly virtual zoo website and deployed it on AWS/Render/Vercel, ensuring fast performance, easy access, and scalable infrastructure.	
Kubernetes HPA Autoscaling Project Docker, Kubernetes, HPA, Flask GitHub	Mar' 26
- Built a containerized web application using Docker and deployed it on a Kubernetes cluster with scalable microservice architecture. - Implemented Horizontal Pod Autoscaler (HPA) to automatically scale pods based on CPU utilization and workload demand. - Configured Kubernetes Deployments, Services, and Metrics Server to monitor resource usage and enable dynamic scaling.	
Flask Docker Kubernetes App Python, Flask, Docker, Kubernetes GitHub	Mar' 26
- Built a containerized Flask web application using Docker and deployed it on a Kubernetes cluster. - Designed and configured Kubernetes Deployments and Services for efficient application deployment and accessibility. - Automated deployment using YAML files and ensured scalability and reliability of the application.	

TRAINING

Full Stack Development (React & Node.js) LPU	Jun' 25 – Jul' 25
28 Days Development Programming at LPU , Online Program.	
- Built full-stack applications using React, Node.js/Express, and MongoDB/MySQL, including frontend UI, backend REST APIs, and secure user authentication . - Designed responsive interfaces, integrated APIs, handled routing/middleware, managed state with React Hooks, and performed debugging and performance optimization. - Gained strong practical experience in full-stack development and successfully deployed applications on AWS/Render/Vercel with proper environment and configuration management.	

CERTIFICATES

TCP/IP and Advanced Topics Coursera	
Social Networks NPTEL	May' 25
Data Structures & Algorithms Board Infinity	Feb' 24
Bits and Bytes of Computer Network Google	Apr' 24

EDUCATION

Lovely Professional University	Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering: CGPA: 6.59	Aug' 23 – Present
Shree Mahendra Das Degree College	Gopalganj, Bihar
Intermediate PCM	Mar' 21 – May' 23
Gyanada International School	Gopalganj, Bihar
Matriculation	Mar '19 – May '20
